Potam, Rio Yaqui, Aug. 4.—via Ortiz, Sonora.—Yesterday, Lieutenant Herrera with a small detachment of troops encountered a group of Indians who fought vigorously for a few minutes, and then retired leaving five dead. Col. Anastacio Torres in another encounter with the Indians repulsed them, killing three. All people in the village are fleeing to the towns and ranches where there are troops. The fighting this morning was headed by Gen. D. Lorenzo Torres in person. While at the head of his troops in action he received a wound in the thigh. The Indians retreated leaving fifteen dead. The government is making every effort to forward additional troops.

Nogales, Aug. 4.—Two galling guns and a detachment of artillery soldiers from the City of Mexico via El Paso, have been hurried southward to the scene of the Yaqui war. Troops are also being marched across the mountains from Durango and Chihuahua to join the forces in the field. From points over Southern Arizona it is reported the Yaqui laborers are leaving for Sonora. Mayor Overton has sent Gov. Murphy of Arizona a request to ask the war department to send a troop of cavalry from Fort Huachuca for the protection of the town.

Paris, Aug. 4.—The Intransigent today springs the following by General Mercier: "Dreyfus will undoubtedly be reconvicted. The report shows that either he or I am guilty. As it is certainly not I it must be Dreyfus. I intend to tell it all at the trial." Mercier will answer that Count Von Muenster, German ambassador to Paris, told him this. Dreyfus had given French military secrets to Germany. Mercier's statement is not taken seriously.

Manila, July 30, via Hong Kong, Aug. 4.—Troops in the southern islands are complaining of the rations which they claim are not suited to the climate and do not include sufficient fresh meats. During six months stay of the California regiment at Negros the regiment was without fresh meat except for occasional supplies of inferior native beef. There is plenty of refrigerated meat in Manila harbor at this time.

Cape Haytian, Aug. 4.—Later advices from the Dominican republic indicate that the revolution is growing in numbers. At Santa de la Cruz 400 well armed men have risen, under command of Generals Pacheco and Preyes, who are very influential in their districts, and have joined the insurgents with several other generals, each commanding important forces.

Washington, Aug. 4.—Official letters received from the representatives in Germany bringing details concerning the recent action in that country looking to the exclusion of beet sugar from Belgium from the German markets and leave little room for doubt that this is done for the purpose of preventing the introduction of the American products.

Glasgow, Aug. 4.—The cap challenger, Shamrock, was rigged yesterday and sailed from the lower Clyde for New York at 10 o'clock this morning. She was accompanied by Sir Thomas Lipton's steam yacht, Erin. A large crowd cheered the Shamrock's departure. As the yacht left her anchorage, Captain Archie Hogarth shouted to those on the shore: "The cap is as good as in the Shamrock's locker."

Attempted Suicide.

The San Francisco Examiner of July 31, says:

Mrs. Sybil Dunn, the wife of Dr. E. C. Dunn, of Fresno, attempted to jump from a wharf at Third and Berry streets into the bay to end her life last night. A boatman on the wharf caught her just as she had thrown off her jacket and was preparing to plunge into the water.

The woman struggled to escape from him and carry out her purpose, begging all the time to be allowed to end her existence. She had been drinking and she was turned over to a policeman, who had her locked up on a charge of drunkenness, so that she could have no chance to harm herself.

Mrs. Dunn was very despondent in the prison. She said she and her husband had become estranged, and that she had neither home nor friends. Dr. Dunn is an extensive vineyardist in Fresno county and owns considerable property in San Francisco. She claims that he commenced divorce proceedings against her about two weeks ago, and since then she has been so despondent that she considered life not worth living. She declared in the prison that she would end her existence at the first opportunity that offered.

"I would mortgage five years of my life if she could be reformed," was the remark of Dr. E. C. Dunn when informed by an Examiner correspondent of the attempt at suicide of his wife.

Dr. Dunn is a well known physician of Fresno, California, prominent in fraternal orders and high in the Knights of Pythias, holding a commission as Colonel in the Uniform Rank, of that order. He married his wife fifteen years ago at Tombstone, Arizona. The news of her attempt upon her life is not a great surprise. She has made several attempts here with morphine, and her life was only saved by the strenuous efforts of her husband. The woman is a confirmed victim of the liquor habit and her husband has done all that science could suggest to cure her, but to no purpose. They have been separated since September last, when as a last remedy he sent her to San Francisco. She is said to become possessed of a suicidal mania when once she has one of her attacks. Dr. Dunn two weeks ago instituted suit for a divorce. Mrs. Dunn has a sister, the wife of W. Bean. She has also numerous other relatives in the Santa Clara valley.

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.:—It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by all druggists.

Flagstaff, Aug. 4.—Sheriff Marks returned from the Verde Canyon, Arizona, yesterday. He was satisfied that Charles Bishop, the Verde assassin, is still secreted in the vast quaking asp forest in that region, and that he probably has provisions to last him six months. The sheriff has by no means given up the chase, but is here to take a fresh start, and will keep after him if it takes his whole term to catch him.
